

Jun Xing (邢骏)

junxnui@gmail.com, <http://junxnui.github.io>

RESEARCH

My research combines modern concepts in Computer Graphics, Human Computer Interaction and Machine Learning, with broad applications in digital painting, animation, special effects, sculpting, image, and geometry analysis and synthesis, as well as UI/UX design. Now, I am moving my application platform to VR/AR! In particular, I am interested in analyzing the human-centered activities of authoring the various digital contents, and providing online “intelligent” suggestions, via a natural interface, to reduce manual labor while improving quality and performance.

EDUCATION

PhD, Computer Science **2012.09—2016.12**

University of Hong Kong, Dept. of Computer Science

Advised by Dr. Li-Yi Wei

Bachelor, Electronic Engineering and Information Science **2008.09—2012.06**

University of Science and Technology of China (USTC), Dept. of Electronic Engineering and Information Science

GPA: 3.85/4.3

WORK EXPERIENCE

University of Southern California, postdoc in ICT, with Hao Li, Los Angeles **2017.05—present**

Adobe, intern in the Procedural Imaging Group, with Cynthia Lu etc., San Jose **2016.07—2016.09**

Autodesk Research, intern in the UI Group, with Rubaiat Habib Kazi etc. Toronto **2016.01—2016.04**

Microsoft Research Asia, intern in the Visual Computing Group, with Takaaki Shiratori etc., Beijing **2014.12—2015.04**

MORE RESEARCH EXPERIENCE

HairNet: Recurrent Network for Hair Modeling from A Single Image **2017.09—present**

Submitted to CVPR 2018

Given an image of hair segmentation/orientation, our network (a combination of CNN, LSTMs) generates sparse hair strands on the scalp that is close to the target hairstyle, followed by hair interpolation to get the final hair model.

Mesoscopic Facial Geometry inference Using Deep Neural Networks 2017.07—present
Submitted to CVPR 2018

We present a method to faithfully reconstruct high-frequency facial microgeometry from a single image.

Identity Preserving Face Completion for Large Ocular Region Occlusion 2017.05—present
Submitted to CVPR 2018

We present a novel deep learning approach to synthesize full face images in the presence of large ocular region occlusions.

Autocomplete VR painting 2016.07—present
The goal is to handle different types of repetitions in VR painting, including the detail decorative strokes, the surface strokes, and even higher-level scaffold, in a simple and general framework.

Strip-based Hair Modeling in VR 2017.08—present
We provide a 3D VR authoring interface for immersive interaction with the hair models. Our system combines the flexibility of manual authoring and the convenience of data-driven automation for high quality hair modeling.

Variational Representations for Facial Geometry 2017.08—present
We explore the nonlinear embedding of facial geometry based on latest advances of variational autoencoder.

Interactive Facial Hair Editing and Synthesis 2017.06—present
Users can design facial hairs of different shapes/lengths/densities via simple sketching, while keeping the style of a target facial hair defined by an exemplar image.

PATENTS

Techniques for Generating Dynamic Effects Animations: US filed by Autodesk (2016)

Stroke Operation Prediction for Three-Dimensional Digital Content: Pending, filed by Adobe (2017)

ACADEMIC SERVICE

Committee Member:

SIGGRAPH 2017 Emerging Technology

Reviewer:

SIGGRAPH Asia 2017; CHI 2017; Computer & Graphics 2017; IEEE Transactions on Cognitive and Developmental Systems 2017; PG 2015, 2016; IEEE Computer Graphics and Applications 2016

PROFESSIONAL SKILLS

Designer: algorithm, system, UI/UX

Programmer: C/C++, Qt, Python, Java, OpenGL/CV/VR, Unity

Artist: digital painting, hand-drawn animation

AWARDS

Excellent intern of Stars of Tomorrow Internship Program, Microsoft Research Asia (MSRA) 2015

HKU University Postgraduate Fellowships (UPF), HKU 2012—2015

Outstanding undergraduate, USTC 2012

Outstanding undergraduate research project, USTC 2011

Second prize in Mathematical Contest in Modeling 2011

National Scholarship, Ministry of Education, P.R.China

2011

National Inspirational Scholarship, Ministry of Education, P.R.China

2009, 2010

Outstanding Students Scholarship, USTC

2008, 2009
